Angelika Mae Cruz

UI/UX Designer | Associate Software Engineer
cruzangelika3020@gmail.com | *linkedin.com/in/angelikamaecruz* | *behance.net/angelikamaecruz*
Cainta, Rizal | *+639482732065*

UI/UX Designer with 4 years of experience designing user-centered web, mobile, and tablet applications. Experienced in translating business requirements into wireframes, prototypes, and high-fidelity UI designs using Figma, with additional skills in 3D modeling using Blender. Also experienced in production support, SQL, and Jenkins

Work Experience

Operations Support | Dec 2025 – Present
Accenture | *TIM AMS*

- Investigate production incidents using SQL and system data to identify root causes and support issue resolution
- Execute ticket extraction processes using Jenkins
- Respond to emails and communicate with Italian counterparts and internal teams, providing clear updates and ensuring proper documentation of requests
- Monitor scheduled batch processes, identify errors and delay, and support the recovery and rerunning of failed processes to ensure successful completion
- Perform file transfers between servers using WinSCP, PuTTY, and Linux commands, investigate missing files, and analyze job stream logs to support production issue resolution

UI/UX Designer | Oct 2025 – Nov 2025
Accenture | *Automotive Internal Project*

- Designed interactive prototypes, multi-view animations, and high-fidelity user interfaces in Figma for mobile and tablet automotive application, enabling users to control and monitor vehicle features
- Created wireframes and UI layouts designs to improve usability and meet client requirements

UI/UX Designer | Dec 2022 – Sep 2025
Accenture | *Connected Ports*

- Designed end-to-end user experience and web interfaces for a port operations platform
- Translated business requirements and user stories into wireframes, interactive prototypes, and high-fidelity designs in Figma
- Designed reusable UI components, layouts, and icons as part of a consistent design system across the application
- Presented UI/UX designs to global stakeholders, explained design decisions, gathered feedback, clarified requirements, and refined designs based on feedback
- Worked in an Agile environment and facilitated daily Scrum stand-up meetings to support team alignment and progress

3D Modeler (Additional Role) | Oct 2024 – Feb 2025
Accenture | *Digital Twin (Connected Ports)*

- Created and rendered 3D models using Blender to support digital dashboards and improve visualization of port operations

- Collaborated with designers and stakeholders to develop interactive visualizations for demos and presentations

Front-End Developer (Additional Role) | Jun 2025 – Sep 2025
Accenture | *Connected Ports*

- Translated UI/UX designs from Figma into responsive web interfaces using HTML, CSS, TypeScript, and Angular
- Implemented UI components and enhancements while ensuring consistency with design standards and usability principles
- Supported front-end testing, bug fixing, and Angular migration tasks to improve application stability and user experience

Junior Unity Developer | Oct 2022 – Nov 2022
Accenture | *DMO Asset Factory*

- Assisted in developing Unity-based interactive applications and digital assets
- Supported implementation, testing, and debugging in an Agile team environment

Core Skills

- Figma
- Wireframing
- Prototyping
- User Stories
- Documentation
- HTML
- CSS
- TypeScript
- Angular
- Agile/Scrum
- Microsoft Azure
- 3D Modeling
- Blender
- Jenkins
- SQL

Internship

Graphic Designer Intern
Tamaray People Solutions Corporation | Dec 2021 – Jan 2022

- Designed brochures, recruitment materials, and digital marketing assets for campaigns
- Created visual designs using Figma and Canva while ensuring brand consistency
- Collaborated with the recruitment team to deliver clear and effective visual communication

Education

Bachelor of Science in Information Technology
STI College Ortigas-Cainta | 2018 – 2022

Personal Project

3D Modeler | Kokomeron (Indie Horror Game)
Maphatar Studios

- Created 3D assets and models for gameplay environments, characters, and thematic elements
- Served as the voice of the game's development overview, presenting gameplay, design decisions, and project highlights for promotion
